

## Press Release

17th October 2012 ~ For Immediate Release

# Angry Robot Signs “Anti-Heroic” Epic Fantasy Series

**Angry Robot** is reeling with the news that maniac fantasy author **Andy Remic** is returning with a brand new series.

***The Iron Wolves*** is the first of at least two novels set during a time of war and invasion. Riffing on *The Dirty Dozen* and *The Magnificent Seven*, the novel sees a disparate band of ruffians and renegades being reunited one last time to defend a key stronghold against overwhelming odds. But when they fight as one, the veteran warriors have a hidden power, and unleashing it one last time will have extraordinary consequences.

Andy Remic’s previous *Clockwork Vampire* trilogy for Angry Robot earned him the nickname “the Tarantino of epic fantasy” and the new novels will be loosely set in the same setting.

The first novel will be published in January 2014 in paperback, ebook and audio editions. The deal was done direct with Andy Remic by Marc Gascoigne, Angry Robot’s MD and publisher.

## Quotable Quote:

**Andy Remic** said: "After the success of my previous Angry Robot titles – *Kell's Legend*, *Soul Stealers* and *Vampire Warlords* – I'm absolutely thrilled and vibrating to be revisiting the fantasy genre.

"Based loosely in the same universe as *Kell's Legend*, ***The Iron Wolves*** will take traditional fantasy elements and stir them violently in a big pot with a barrel of whiskey. We're talking gruesome battles, nasty anti-heroes, hardened soldiers, bloody enemies, twisted deviants and gritty realism so damn gritty you'll be spitting blood, teeth and gristle by the bloody violent end!"

Find out more about Andy Remic at his website: [www.andyremic.com](http://www.andyremic.com) and follow him on [Twitter](#) (if you dare...)
